## NEW CHAT ROOMS

Please see the following screen snapshots and questions we have been able to compile.

Getting to the chat room is the same as always, pick the room you normally go into and connect to chat. You put in your user name and the java cup will do it's thing, do NOT close that screen, you will be brought to the chat room. If you have the chat room in your favorites it will NOT work, you MUST go through the main page to get to the new chat rooms then you can save the new one.

You will no longer be able to use mirc, so if you are using mirc, please come in through the website [www.groww.org](http://www.groww.org) all of the links are new so you have to go to the main GROWW page!

Fyi:

GR is <http://www.groww.org/chat/gr.htm>

## Instructions for the New Chat Rooms

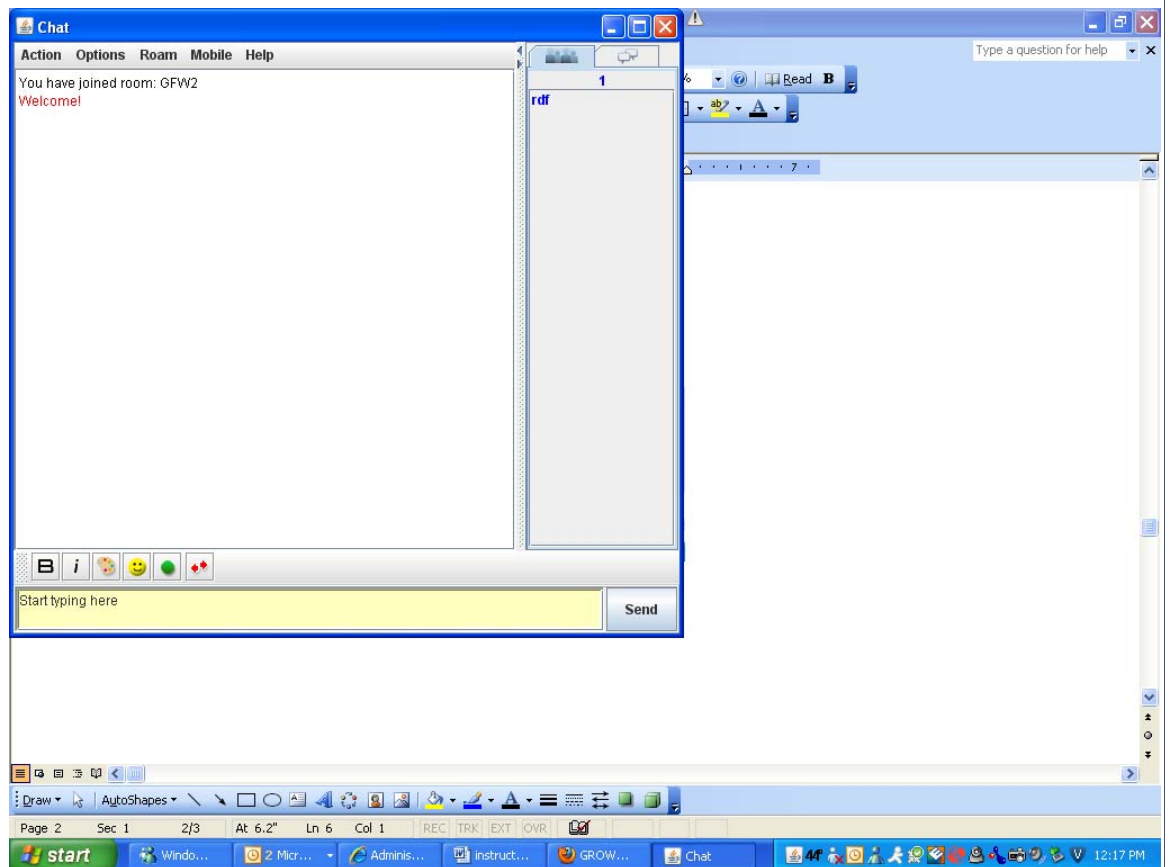

Enter your user name and select connect

If the room is password protected a new window will open. Enter the correct password.

Type on the yellow line and hit enter to begin chatting. DO NOT close the connect window. Only minimize it. If you do not see the chat room window, look on the task bar for a "java" icon. (coffee cup). Click on the icon, click on the words "chat" and you should see the chat room.

Just above the yellow chat line there are 6 icons.

B = Bold your type

I – italic type

Color palette – changes the color of your text

Smiley face – if this feature is abused we will be forced to enable the feature

Green circle – status – available, brb, phone, busy, etc. Please use this feature rather than entering brb in the room.

Last icon – log in or log out of the room.

Private chat – highlights the members name, right click and select private chat. A new window will open.

Across the top of your chat window - actions, options, Roam, Mobile, Help

Actions:

Voice chat – this feature is not available and there is no plan to enable the feature in the future.

Options:

User define

You may turn off the emotions display, add sound when someone arrives or leaves turn sound off, etc.

Roam – is where you can see who is in other rooms

Mobile – not set up at this time.
